"... Let the word go forth from this time and place, to friend and foe alike, that the torch has been passed to a new generation — born in this century, tempered by war, disciplined by a hard and bitter peace. ...

In the long history of the world, only a few generations have been granted the role of defending freedom in its hour of maximum danger. ... So let us begin anew — remembering on both sides that civility is not a sign of weakness, and sincerity is always subject to proof. Let us never negotiate out of fear. But let us never fear to negotiate. . . . And if a beachhead of co-operation may push back the jungles of suspicion, let both sides join in a new endeavor — not a new balance of power, but a new world of law, where the strong are just and the weak secure and the peace preserved."

PRESIDENT'S MESSAGE

CLAUDE BISSELL

At conferences and public meetings
The President brings cheerful greetings —
A platitude from outer space,
Statistics neatly fitted into place,
Unveiling of a special measure,
And in conclusion — "It's a pleasure".
But to you who've reached a new estate —
A bona fide graduate —
I bring a message for the times,
Decked out, to boot, in tinkling rhymes.

'64 trails clouds of glory,
A landmark in the human story;
When Charlottetown seized on the goal
Of Canada as one great whole,
And he whose words matched every dream
First gazed upon the human scene.
But all these large events will be
Pale shadows of your earned degree.
To fix your status, you need no more
Than old Toronto — '64.

The unexamined way is not,
Said Plato, worth a second thought.
So to each of you, a happy life
That's braced at times with mental strife.

the confidence of our customers is our greatest heritage!

Eaton's of Canada has grown in size and importance on customer-confidence—on the faith the buying public places not only in the selections and values, but in the descriptions found in Eaton Advertisements. One of the first steps in customer-confidence is the realization that what an Eaton ad says about goods and prices can be trusted.

If we should have any doubts concerning claims of quality, the merchandise must be tested and the statements approved by our Research Bureau before the descriptions may be used. More important, perhaps than anything else in establishing customer-confidence in Eaton's advertising is the policy laid down by the founder of the firm—

"Goods Satisfactory or Money Refunded".

EATON'S OF CANADA
